

Aneurysmal Subarachnoid Hemorrhage Multi-Omics Research Program

NCT07270419

Status RECRUITING
Sponsor Xiaolin Chen, MD
Enrollment 2,000 participants

Key Eligibility Criteria

Inclusion (6)

- Adult patients aged ≥18 years;
- Confirmed diagnosis of aneurysmal subarachnoid hemorrhage (aSAH) by CTA, or DSA;
- Aneurysm secured by either microsurgical clipping or endovascular coiling during hospitalization;
- Time from onset to aneurysm treatment ≤72 hours;
- Availability of biospecimens, including blood, cerebrospinal fluid (CSF), urine, or fecal samples collected during hospitalization;
- ... and 1 more (see full listing online)

Exclusion (6)

- History of previous intracranial aneurysm surgery or embolization;
- Non-aneurysmal SAH, traumatic SAH, or perimesencephalic non-aneurysmal hemorrhage;
- Presence of malignancy, severe hepatic or renal dysfunction, or other systemic diseases that may affect survival or biomarker expression;
- Severe cardiorespiratory insufficiency or unstable medical condition precluding study participation;
- Pregnancy or lactation;
- ... and 1 more (see full listing online)

Locations (1 total)

Beijing Tiantan Hospital, Beijing, Beijing Municipality, China
