

# The Fever Clinic Acute Respiratory Cohort

NCT07278700

---

Status	RECRUITING
Sponsor	Fudan University
Enrollment	1,000 participants

## Key Eligibility Criteria

---

### Inclusion (5)

- Age  $\geq$  18 years (based on official identification document).
- Presence of fever at the time of visit or within 24 hours prior to the visit, defined as a documented temperature of  $\geq 37.3^{\circ}\text{C}$  axillary/tympanic,  $\geq 37.8^{\circ}\text{C}$  orally, or  $\geq 38.0^{\circ}\text{C}$  rectally.
- The primary cause of fever, as determined by the attending physician, is a respiratory tract infection.
- Blood draw is required as part of standard clinical care.
- Ability to comprehend the study's purpose, procedures, and potential risks, and willingness to provide written informed consent.

### Exclusion (4)

- Inability to provide independent informed consent due to impaired consciousness or other reasons.
- Inability to comply with the study procedures.
- Medical contraindications to blood sampling, such as severe coagulopathy (e.g., INR  $>$  3.0, platelet count  $<$   $50 \times 10^9/\text{L}$ ).
- Diagnosed with a terminal illness (e.g., advanced malignancy, severe multiple organ failure) and a life expectancy of less than 3 months.

## Locations (1 total)
