

# Passive Fit of Implant-Supported Complete-Arch Prostheses Using Digital Workflows

NCT07315620

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Universidad Complutense de Madrid
Enrollment	30 participants

## Key Eligibility Criteria

---

### Inclusion (6)

- Adults aged 18 years or older.
- Patients indicated for fixed implant-supported full-arch rehabilitation in the maxilla or mandible.
- Presence of clinically stable, osteointegrated titanium implants suitable for prosthetic rehabilitation.
- Absence of clinical or radiographic signs of peri-implant disease.
- Ability to understand the study procedures and provide written informed consent.

... and 1 more (see full listing online)

### Exclusion (5)

- Presence of peri-implant mucositis or peri-implantitis at the time of evaluation.
- Implant mobility or implant positioning that prevents proper prosthetic rehabilitation.
- Uncontrolled systemic medical conditions that could interfere with study participation or prosthetic treatment.
- Cognitive, psychological, or medical conditions that limit the ability to comply with study procedures.
- Inability to complete the required clinical evaluations or follow the study protocol, as judged by the investigator.
