

Risk Prediction of Disease Progression in Early-Onset Coronary Atherosclerosis

NCT07316452

Status RECRUITING
Sponsor Fu Wai Hospital, Beijing, China
Enrollment 10,000 participants

Key Eligibility Criteria

Inclusion (3)

- Age between 18 and 45 years at the time of enrollment.
- Presence of symptoms suggestive of coronary artery disease and completion of coronary computed tomography (CT) examination.
- Ability and willingness to provide written informed consent and to participate in follow-up assessments.

Exclusion (7)

- Inability or unwillingness to complete follow-up assessments.
 - Inability to provide written informed consent.
 - History of coronary revascularization, including percutaneous coronary intervention or coronary artery bypass grafting.
 - Poor-quality coronary computed tomography images that are inadequate for reliable plaque assessment.
 - Presence of severe systemic disease with limited life expectancy that may interfere with study follow-up.
- ... and 2 more (see full listing online)
