

Lateral Crural Steal With Columellar Strut Graft in Primary Open Rhinoplasty

NCT07317947

Status	RECRUITING
Phase	Not Applicable
Sponsor	Kafrelsheikh University
Enrollment	22 participants

Key Eligibility Criteria

Inclusion (3)

- Patients seeking primary rhinoplasty for aesthetic and/or functional indications.
- Presence of inadequate nasal tip projection and/or rotation suitable for correction using lateral crural steal with columellar strut graft.
- Ability to provide written informed consent and comply with follow-up visits.

Exclusion (8)

- History of prior nasal surgery.
- History of severe nasal trauma, altering cartilage architecture.
- Significant functional nasal obstruction requiring complex external nasal valve reconstruction.
- Patients with excessively wide alar base requiring alar base reduction involving vestibular sill excision (to prevent confounding on projection/rotation).
- Patients with facial skeletal or developmental abnormalities e.g. maxillary hypoplasia, maxillary prognathism, dentofacial deformities.
