

Registry Study of Cerebral Small Vessel Disease

NCT07342075

Status	RECRUITING
Sponsor	Dongzhimen Hospital, Beijing
Enrollment	50 participants

Key Eligibility Criteria

Inclusion (3)

- Age above 50 years (including 50-year-old);
- MRI confirmed the presence of typical imaging changes of CSVD;
- Voluntary participation in the study and be willing to sign the Informed Consent Form.

Exclusion (8)

- Patients with acute ischemic stroke or acute intracranial hemorrhage (e.g., epidural hematoma, subdural hematoma, subarachnoid hemorrhage, intracerebral hemorrhage, etc.) or a history of cerebral infarction (non-lacunar) or intracranial hemorrhage within the past 3 months;
- Significant non-vascular white matter lesions (e.g., multiple sclerosis, adult-onset leukoencephalopathy, metabolic encephalopathy, etc.);
- Patients with a history of cognitive impairment due to other causes (e.g., normal pressure hydrocephalus, Alzheimer's disease, Parkinson's disease, multiple sclerosis, encephalitis, etc.);
- Severe hepatic, renal, or cardiac insufficiency (ALT or AST ≥ 2 times the upper limit of normal, or serum creatinine ≥ 1.5 times the upper limit of normal, or New York Heart Association [NYHA] functional class III or IV);
- Patients with psychiatric disorders that affect study medication administration and evaluation;
- ... and 3 more (see full listing online)
