

# Improving Digital Wellbeing in Saudi Adolescents

NCT07344142

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	Johns Hopkins Bloomberg School of Public Health
<b>Enrollment</b>	2,500 participants

## Key Eligibility Criteria

---

### Inclusion (2)

- The study will include students enrolled in Grade 12 at participating high schools that are randomly assigned to one of the study arms.
- In addition, parents or legal guardians of these students will be eligible to participate in the parent-focused component of the intervention if the student is assigned to the enhanced curriculum group.

### Exclusion (1)

- Students and parents will be excluded from the study if the students and parents do not provide assent or consent to participate, in accordance with ethical guidelines.

## Locations (1 total)

---

Sulaiman Al Rahji University, Buraidah, Saudi Arabia
