

# A Study to Characterize Human Skin Changes From Biostimulator Treatments Via Non-invasive Imaging

NCT07399028

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Galderma R&D
Enrollment	25 participants

## Key Eligibility Criteria

---

### Inclusion (10)

- Adult subjects aged 45-65 years old
  - Females only
  - Subject with moderate-to-severe cheek wrinkles on the GCWS
  - Subject with intent to undergo correction of cheek wrinkles on both sides of the face
  - Subject who in the opinion of the Investigator would need 3 treatments for optimal clinical outcomes
- ... and 5 more (see full listing online)

### Exclusion (4)

- Subjects with a history of allergy or hypersensitivity to any ingredient of the treatment products.
- Previous tissue-augmenting therapy, contouring, or revitalization treatment in the face, except lips.
- Previous treatment/procedure in the face in the previous 6 months that, in the Investigator's opinion, would interfere with the study injections and/or study assessments or exposed the study subject to undue risk by study participation, or planning to undergo any of these procedures affecting the treatment area at any time during the study.
- Subjects with any medical condition that, in the opinion of the Investigator, would make the subject unsuitable for inclusion.
