

Electric Stimulation Home Use(CGM MEPC_2401) for Improving Blood Circulation

NCT07446088

Status	RECRUITING
Phase	Not Applicable
Sponsor	Ceragem Clinical Inc.
Enrollment	40 participants

Key Eligibility Criteria

Inclusion (3)

- Adults aged between 19 and 65 years
- Individuals with a BMI of 30.0 kg/m² or less
- Individuals without abnormal findings on hematology tests (CBC)

Exclusion (4)

- Patients with uncontrolled hypertension despite medication (defined as systolic blood pressure \geq 150 mmHg or diastolic blood pressure \geq 100 mmHg measured at rest)
- Patients with medical conditions requiring the use of assistive devices (e.g., pacemaker, artificial joint, stent, prosthesis, etc.)
- Patients with seizure disorders or a history of loss of consciousness (e.g., epilepsy, acute febrile convulsions such as those associated with severe fever, etc.), or those at high risk of electric shock due to such conditions
- Patients with ventricular arrhythmias (e.g., ventricular tachycardia, history of coronary artery bypass surgery, etc.) and patients with neurological disorders (e.g., diabetic neuropathy, etc.)
