

Northwestern Neuromuscular Disease Biorepository

NCT07477509

Status	RECRUITING
Sponsor	Northwestern University
Enrollment	2,500 participants

Key Eligibility Criteria

Inclusion (2)

- Undergoing evaluation for or diagnosed with a neuromuscular disorder, including but not restricted to motor neuron diseases (MNDs), neuropathies, neuromuscular junction disorders, and myopathies as a patient under the care of a provider in the Northwestern Neuromuscular Division
- Provision of signed and dated informed consent form personally or via legally authorized representative (LAR) \[SOP: HRP-013\] in accordance with Good Clinical Practice (GCP), International Conference on Harmonization (ICH), and local regulations.

Exclusion (2)

- History of a bleeding disorder or current treatment with anticoagulants (e.g., Coumadin, heparin) in participating study participants that would preclude collection of CSF or skin biopsies for these sub-studies.
- History of keloid formation for study participants who will undergo skin biopsy.
