

# Muscle Health Measurements Using Electrical Impedance Myography

NCT07502989

---

|            |                                      |
|------------|--------------------------------------|
| Status     | RECRUITING                           |
| Sponsor    | Beth Israel Deaconess Medical Center |
| Enrollment | 150 participants                     |

## Key Eligibility Criteria

---

### Inclusion (2)

- Ages 18-89
- Evidence of a primary myopathic condition as determined by detailed chart review, including results of genetic testing, serological data, or previous muscle biopsy

### Exclusion (12)

- Inability to lie flat or history of claustrophobia
- >1+ lower extremity edema
- Presence of multiple other pathologies affecting lower extremity muscles to be studied
- Pregnancy
- Contraindications for MRI scanning - e.g. MRI incompatible pacemaker, deep brain stimulator, or lower extremity hardware
- ... and 7 more (see full listing online)

## Locations (1 total)

---

Beth Israel Deaconess Medical Center, Boston, Massachusetts, United States
