

Hope Groups: Parenting and Mental Health Among Refugees in the Middle East

NCT07506421

Status	RECRUITING
Phase	Not Applicable
Sponsor	University of Oxford
Enrollment	205 participants

Key Eligibility Criteria

Inclusion (5)

- Participant is living in one of our partner refugee camps.
- Participant is a parent/caregiver for one or more child (of any age).
- Participant is over the age of 18.
- Participant has high, medium, or low literacy. (Note: This is in order to use our Hope Groups programme guide. Our team is concerned that individuals with no literacy would need more audio files, rather than just a text-driven participant guide. If Hope Groups demonstrate effectiveness in this pilot, investigators will have focus groups with low-literacy participants, to create a future version which is suitable for people of all literacy backgrounds.)
- Participant consents to participate in the study.
