

Russian Extreme Hypertriglyceridemia Registry

NCT07508930

Status	RECRUITING
Sponsor	Russian Cardiology Research and Production Center
Enrollment	500 participants

Key Eligibility Criteria

Inclusion (3)

- Patients with extreme hypertriglyceridemia (triglyceride levels ≥ 10 mmol/L), confirmed by at least two independent measurements.
- Written informed consent from the patient or legal guardian.
- No age restrictions.

Exclusion (2)

- Patients whose extreme hypertriglyceridemia is caused by alcohol abuse, uncontrolled diabetes, or other medical conditions, unless extreme hypertriglyceridemia is confirmed after controlling the underlying condition.
- Lack of informed consent.
